Appointments

7:00 Marie Iken – Drainage at 140 Academy Hill Road

Marie came in to speak about a drainage issue impacting her land. She said that rainwater runs off of Pleasant Street and then down from across Academy Hill Road. She said this was a new issue because the water used to run straight into a culvert or down the street past her house. She gave the Board a description of where the flow went. She noted that the road crew had dug a new ditch that now diverts the water into her driveway. Chuck said that her presentation seemed logical and that he felt a site visit was in order. Bob Baker will be contacted and asked to meet on site at some point this week. Marie will ask her neighbor to attend this meeting as well.
